

BASIC DEMOGRAPHIC INFORMATION

from 120 Niger Delta Communities

(6 States, 13 LGAs, 478 Focus Groups, 9,018 Participants)

**Part of the Citizen Report Card
on Public Services, Good Governance and Development from 120 Niger Delta Communities**

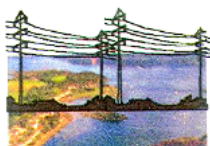

Niger Delta Professionals for Development (NIDPRODEV)
Effurun-Warri, Delta State, Nigeria
January 2011

Sponsored by the European Union

This project was funded by the **European Union (EU)**. Based on a partnership agreement between the **EU** and the **Federal Republic of Nigeria**, the implementation responsibilities of the **EU INSIDE** programme belong to the **National Planning Commission (NPC)**.

Niger Delta Professionals for Development (NIDPRODEV) is a Nigerian non-governmental organization that has worked in the Niger Delta for over 11 years on conflict management, community development, good governance, livelihood issues, and data collection and analysis. The **Leadership Center for Peace, Integrity and Transformation** is NIDPRODEV's parent organization.

NIDPRODEV

PTI Road, Plot 211, Fashion-N-Vogue Building
Effurun-Warri, Delta State
234 802-327-0549, 234 805-851-1591

METHODOLOGY

1. Between August and December 2010, NIDPRODEV programme officers fluent in local languages and culture visited each of the 120 communities, where they first spoke to community members in a Town Hall Meeting to describe the project and answer any questions. Community members were then asked to participate in Focus Group discussions. Those who participated were divided into four (4) different focus groups based on gender and age: Older Men, Younger Men, Older Women, and Younger Women. The age of forty years (40) was given as the distinguishing age between an older person and a younger person. Although NIDPRODEV staff did not verify participants' ages, it did ensure that people who presented themselves in focus groups who were noticeably above or below the appropriate age for that group were asked to join the appropriate Focus Group.
2. Within each Focus Group, participants were given each survey question and then instructed to discuss the question among the group members. When the group reached consensus on an answer, the NIDPRODEV programme officer repeated the answer and asked the group to confirm that the answer given is indeed the one they wished to have recorded. For certain questions that required individual participant answers, such as "Who in this room can read a book out loud to another person," participants were asked to raise their hands as the form of response.
3. In addition to specific answers to survey questions, qualitative responses from each Focus Group were recorded by the NIDPRODEV programme officers. Those narrative answers are provided in whole in the section of the Citizen Report Card of 120 Niger Delta Communities as "Community Member Comments." The comments reinforce the answers given in the survey responses, and in some cases, go further in providing a more contextual understanding of community life and struggles.
4. The demographic information contained in this section relates to: (1) Ethnicity, (2) Terrain, (3) Ethnic Group, (4) Oil Producing or Not, (5) Part of Oil Company Development Agreement (GMOU) or not, (6) livelihoods (farming and fishing, across gender and age), (7) Reading Ability (across gender and age), and (8) Use of Mosquito Nets (across gender and age). Survey questions about reading ability and mosquito net use were asked (a) as proxy indicators of educational quality and health risks related to malaria, respectively, both of which contribute to livelihood vulnerability, as well.
5. No questions were asked about population size as NIDPRODEV has learned from past community assessments that the estimates given by different community members vary widely and, therefore, are not reliable or useful.

TABLE OF CONTENTS

Page

1. State-to-State Comparison (by Gender) of Percentage of Participants Who Say:	
a. They Farm	6
b. They Fish	7
c. They Can Read a Book Out Loud to Another Person	8
d. They Slept Under a Mosquito Net the Night Before	9
2. South East Geopolitical Zone	10
a. Abia State	15
b. Imo State	20
3. South West Geopolitical Zone	25
a. Ondo State	26
4. South South Geopolitical Zone	34
a. Bayelsa State	39
b. Delta State	44
c. Rivers State	51

STATES AND LOCAL GOVERNMENT AREAS

ABIA STATE (South East Geopolitical Zone)

**% Who Said They
Slept Under a Mosquito
Net the Night Before
the Assessment: 2% of Focus Group Participants**

0% of Older Men	0% of Older Women
7% of Younger Men	0% of Younger Women

None of the 8 Communities had received free mosquito nets over the past year.

IMO STATE

Ohaji Egbema LGA

10 Communities: Obokofia, Etekwuru, Opuoma, Mmahu, Obiakpu, Obosima, Umuapu, Ihie, Obitti, Umuagwo

Ethnicity: Igbo

Terrain: Rural: 9 of the 10 Communities
Rural/Near a City: 1 community (Umuagwo)

Oil Producing: 10 out of 10 communities identify themselves as oil producing

GMOU: None of the communities is part of an oil company GMOU for Community Development

Number of FG

Participants: 904 Focus Group Participants

(274 Older Women, 162 Younger Women, 191 Older Men, 277 Younger Men)

% Who Farm: 91% of all Focus Group Participants

97% of Older Men	90% of Older Women
83% of Younger Men	97% of Younger Women

% Who Fish: 17% of all Focus Group Participants

20% of Older Men	5% of Older Women
29% of Younger Men	10% of Younger Women

**% Who Say They
Can Read a Book
Out Loud to Another: 56% of all Focus Group Participants**

70% of Older Men	31% of Older Women
72% of Younger Men	58% of Younger Women

NOTE: By far, Opuoma Community had the lowest literacy rate among Younger Men (29%), Older Women (15%) and Younger Women (15%); and the second lowest literacy rate among Older Men (63%).

**% Who Said They
Slept Under a Mosquito
Net the Night Before
the Assessment: 16% of all Focus Group Participants**

25% of Older Men	8% of Older Women
16% of Younger Men	13% of Younger Women

OGUTA LGA

10 communities: Ndi-Uloukwu Izombe, Mgbele, Ndionyemaobi, Egwe, Ejemekwuru, Umunwama-Izombe, Eziorsu, Aborshi-Izombe, Eguoma, Obudi Agwa

Ethnicity: Igbo

Terrain: Rural (8 communities)
Rural/Riverine (1 community) (Edwe)
Near a City (Umunwama-Izombe)

Oil Producing: 9 of the 10 communities identify themselves as oil producing. Only Egwe describes itself as non-oil producing.

GMOU: Only Umunwama-Izombe identifies itself as a GMOU community. The GMOU is Jissike RDC, a Chevron GMOU.

Number of FG

Participants: 712 Focus Group Participants

(149 Older Women, 76 Younger Women, 216 Older Men, 271 Younger Men)

% Who Farm: 99% of all Focus Group Participants

98% of Older Men
100% of Younger Men

100% of Older Women
98% of Younger Women

% Who Fish: 16% of all Focus Group Participants

[Note: Only 5 of the 10 communities had Focus Group participants who said they fish: Mgbele, Ndionyemaobi, Egwe, Eziorsu, and Egbuoma.]

15% of Older Men	5% of Older Women
22% of Younger Men	18% of Younger Women

**% Who Say They
Can Read a Book
Out Loud to Another: 65% of all Focus Group Participants**

64% of all Older Men	8% of all Older Women
29% of Younger Men	77% of all Younger Women

**% Who Said They
Slept Under a Mosquito
Net the Night Before
the Assessment: 4% of all Focus Group Participants**

4% of Older Men	3% of Older Women
1% of Younger Men	14% of Younger Women

NOTE: The Younger Women in Eziorsu had a dramatically higher percentage of mosquito net usage (67%). Next in terms of Younger Women usage was Obudi Agwa with only 19%.
